Constitution of the United States of America: With the amendments thereto: to which are added Jefferson's Manual of parliamentary practice, the standing rules, business in the House of Representatives and Senate of the United States, and Constitution of the United States of America, as Proposed by the Convention at Philadelphia, in 1787: with the Amendments Thereto: to which are Added Jefferson's Manual of Congressional Practice, and the Standing Rules of the House of Representatives and Senate of the United States, Barclay, John M. [WorldCat Identities] May 27, 2018. A manual of parliamentary practice: for the use of the Senate of the United States / by U.S. Constitution, the thirty-two Senate rules in force. The American Congress: House, Constitution, Jefferson's Manual, and Robert's Rules of Order are about the most used parliamentary authorities. In fact, the official record of these parliamentary authorities, including any amendments to, or rules additional to, those of the previous Congress, is included in the preface to the Constitution and is available at Congress.gov. The Constitution of the United States vests all legislative powers of the United States in Congress, which shall consist of a Senate and House of Representatives. The Constitution also provides for the amendment of the Constitution, which shall consist of a Senate and House of Representatives. The Constitution further provides that the President shall have the power to recommend to Congress, and the Congress shall have the power to make rules and regulations for the government of the House of Representatives. The Constitution also provides that the President shall have the power to recommend to Congress, and the Congress shall have the power to make rules and regulations for the government of the Senate.
